#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification, as filed on November 23, 2001, does not include the limitation that the tip of the hook is in the form of a tiny half ball, rounded, as now set forth in the claim. There is no mention of this feature in the original written description and the original drawings show the tip as being pointed, particularly Fig. 1.

#### Specification

The amendment filed November 07, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The original specification, as filed on November 23, 2001, does not include the limitation that the tip of the hook is in the form of a tiny half ball, rounded, as now set forth in the claim. There is no mention of this feature in the original written description and the original drawings show the tip as being pointed, particularly Fig. 1.

Applicant is required to cancel the new matter in the reply to this Office Action.
